What is this Online Course Facility?

- To offer additional academic flexibility to students, the Board of Studies and higher academic bodies have approved the decision of allowing students to take online courses of Coursera/NPTEL as alternative to the open elective courses offered by the college

- You can opt

  - OET and or OEHM offered by college

  OR

  - Equivalent Course/specialization from Coursera (atleast 30hrs duration course for 2 credits)

  OR

  - Equivalent Course from NPTeL (minimum 8 weeks course)

The Eligibility Criteria (Who can choose?)

- Students admitted under Somaiya Vidyavihar University (SVU)

- If the students has availed online course facility during semester v and has failed to complete the chosen online course in the lieu of OET/OEHM, he/or she will not be eligible for this facility in semester VI. He/She will compulsorily under take the OET/OEHM offered by KJSCE in forthcoming semesters

Advantages of opting this facility

- Student gets a choice of wide range of courses available on Coursera/NPTEL

- Student can complete the online course in his/her own pace during the course of the semester

- Student will not attend OET/OEHM offered by the college.

- For the chosen online course in the lieu of OET/OEHM, student will not undergo any test/evaluation (ISE/IA) in the college. The student will complete the evaluations of the chosen course on the Coursera/NPTEL and submit the course completion certificate and earn the 2 credits of OET/OEHM

Any additional Fees for opting this facility?

- The students will have to pay their regular full fees applicable for AY 2023-24.

- OET and or OEHM offered by college: **No additional fees**

- Equivalent Course/specialization from Coursera (atleast 30hrs duration course for 2 credits): **No additional fees as Coursera licenses are procured by the college**

- Equivalent Course from NPTEL (minimum 8 weeks course) : **The NPTEL course fee to be borne by the student availing the facility**

How to choose the open elective course?

- For College offered: You are required to fill the Google form

- For Coursera (the Coursera catalogue will be provided to you):

  - You will need to choose the appropriate course/courses/specializations contributing to at least 30hours

  - The courses which are similar or belong to same domain can be combined for OET/OEHM (these will be termed as specializations)

  - The chosen online OE courses should not overlap with the core courses in your curriculum. They can be preferably can be interdisciplinary courses or completely different courses allied to you department or can be advanced courses with very little overlap

How to choose the open elective course?

- For Coursera contd……..

  - If you are opting the online course option for OET, the chosen courses/specializations necessarily have to be technical courses, preferably interdisciplinary courses or completely different courses allied to you department or can be advanced courses with very little overlap (not more than 20%).

  - If you are opting the online course option for OEHM-Management (for Comp, ETRX and IT students in sem V): The chosen online courses need to be of Management domain

  - If you are opting the online course option for OEHM-Humanities (for EXTC and MECH students in sem V): The chosen online courses need to be of Humanities

    or Humanities and management will be reversed in Sem VI)

How to choose the open elective course?

- For NPTEL:
  - The appropriate course from the courses which are available on NPTEL for the period of concerned semester needs to be chosen
  - The course at least have to be 8 weeks course
  - The category of the course to choose remains same as that of Coursera for the OET or OEHM-Humanities or OEHM-Management category

Process for opting the Facility

- A Google choice form will be floated by Joint associate Dean AP/OET-OEHM Coordinator

- Students will fill in the choice of online courses. He can opt online course in the lieu of OET or OEHM or BOTH OET and OEHM (opting BOTH is recommended)
  - For NPTEL it will be just one course of 8weeks available on NPTEL each for OET/OEHM (Enter name as well as course id of same).
  - For Coursera OET/OEHM may be combination of similar or allied courses to make it minimum 30hrs duration (the details of all the Courses and their Coursera ID have to entered without fail).

Process of opting the Facility contd…

- If the choice form is not completely filled, it will be out rightly rejected and student will continue with the open electives offered by the college. No queries will be entertained in this regards.

- The Choice of online course submitted by the student will be reviewed by the departmental committee. The committee reserves right to approve or dis-approve the choice, if it is not within the constrains of the open electives

- The student who does not fill in the form or who fills in the form incorrectly with incomplete data or who fills in the form correctly but the department committee dis-approves the choice, will continue with the college offered open electives

Process of opting the Facility contd…

- The student whose choice is approved only will proceed for online course option.

- These students will enroll for all the corresponding courses / specializations and complete all the requirements related to courses / specializations within the stipulated time of our regular academic semester in which this facility is availed

- The student will earn the 2 credits equivalent to the OET and/or OEHM after he/she produces the course completion certificate/certificates for all the course/courses under consideration.

What happens if the student fails to complete?

- In case of any unforeseen reason/s if student decide to discontinue the Coursera Specialization / courses, student may be permitted to join the on-going academic programme in the college as a normal student and shall thereafter attend all lectures, practical, appear for tests, etc.

- However this option would be valid only if permission from Principal and HoD is taken before completion of one month after the commencement of the said semester as per academic calendar.

- After this period, the students may not be allowed to join the semester. The student will have to complete the requirement of concerned OET/OEHM in online mode only.

What happens if the student fails to complete?

- If a student fails to complete the chosen and approved Coursera/NPTEL course / specialization, it will be considered as failure in the concerned open elective (KT) and the student will need to complete the course requirement in the next semester by means of online course/specialization only.

- Such a student who does not complete the chosen online course by end of the running semester, the option of choosing the online course as an alternative to open electives will remain unavailable for such a student for all forthcoming coming semesters. He/she will only use online course option to complete the requirements of pending open elective of the preceding semester.

IMP Points to Remembered

- As the online Coursera course/specializations(combinations of multiple online courses from similar or allied domain) may have different types of evaluations and different weightages w.r.t to total marks etc., we will not account the grades earned in these Coursera courses as calculations in the CGPA / SGPA. Same applies for NPTEL courses as well as they are not evaluated by the college.

- The maximum of 2 credits for the concerned OE(s) will be only reflected as credits earned in the students' grade cards with appropriate indication of the undertaken Coursera/NPTEL courses. No additional credits will be accounted for if the student undertakes Coursera courses for more than 30hrs duration or ...re than 8 weeks.

IMP Points to Remembered contd…

- Students will not claim the earned credits through online courses under this policy for anything other academic credit requirements than the said OE(s) in the semester under consideration

- Students will not undertake the same online course(s) in any forthcoming semesters for any other academic credit requirements.

- The students undertaking the online course/ Specialization as an open elective/electives will not be eligible for any prizes/ awards for highest ranking student or any other equivalent appreciation valid for the students of that particular batch.

IMP Points to Remembered contd…

- In order that the students adhere to this policy, the students will need to give undertaking duly signed by him/her and also, by the parents before enrolling for the online course.

- In case of any problem / issues related to completion of Coursera courses / specialization, the students are required to report the matter to the authorities in the order of the hierarchy mentioned below. The students should report ASAP and not wait till the term end in case of any problems / issues.
    - Open Elective Coordinator of the department
    - HOD
    - Asso. Dean Academic Programmes / Jt. Asso. Dean Academic Programmes
    - Vice principal/ Principal

IMP Points to Remembered contd...

- The policy document will be circulated to you in due time.

- College authorities reserve the right to change / update the policy as and when required

IMP Points to Remembered contd…

- The following points to be carefully considered while filling the form.

  - Zoom Attendance ID (will be provided after the webinar)

  - Course ID

  - Average hours

  - Language

  - Certificate issue

  - Pre-requisites

  - Level of course

  - Extra cost
